

RELEVANT COURSES UNDERTAKEN

- **French Language**
- **Data Structures using C++**
- **Design & Analysis of Algorithms**
- **Microprocessor & Interfacing**
- **Computer Organization & Architecture**
- **Personality Development**
- **Microprocessor Lab**
- **Data Structures & Algorithms Lab (C & C++)**
- **Probability & Queuing Theory**
- **Principles of Programming Languages**
- **Theory of Computation**
- **Operating Systems**
- **Operating Systems Lab**
- **JAVA Programming**
- **Computer Skills**
- **Operations Research Techniques**
- **Principles of Communication**
- **Compiler Design**
- **Computer Networks**
- **Compiler Design Lab**
- **Networking Lab**
- **Industrial Training**
- **Artificial Intelligence & Expert Systems**
- **Data Base Management Systems**
- **Object Oriented Analysis & Design**
- **Logic for Computer Science**
- **Artificial Intelligence & Expert Systems Lab**
- **Data Base Management Systems Lab**
- **Industrial Management & Economics**
- **Software Engineering**
- **Parallel & Distributed Computing**
- **VLSI Design & Embedded Systems**
- **Software Engineering Lab**
- **VLSI & Embedded System Design Lab**
- **Scripting Languages & Web Technology**
- **TCP/IP Principles & Architecture**
- **Advanced Databases**
- **Network Security**
- **LINUX Internals**
- **ATM Networks**
- **Grid Computing**
